

UDRC Update for June

June 2024 - Thanks to All! Updates/Comments on Correspondence

Dear Everyone who loves Drag Racing,

We desperately need a track/facility here in the Salt Lake Area!

The parcel of land that the Utah Schools and Institutional Trust Lands Administration (SITLA) owns, mentioned in the April 2024 letter below, is the ideal location. The area is industrial and there is little to no potential for future residential development too close. Noise concern box checked! Only a portion of this 720+ acre parcel is needed for a first class drag racing facility. We think 120 acres would be more than enough to accommodate a $\frac{3}{4}$ mile strip (i.e. 1320' strip and $\frac{1}{2}$ mile of shut down running west to east). $\frac{3}{4}$ mile is the new NHRA safety requirement for the 300+mph cars. We are asking the State of Utah and other Government stakeholders to work with UDRC on a public/private partnership and make this feasible and reality. We are also seeking industry/private partners! The capital needed for a first class facility is significant. The people of Utah desperately need a facility for all drag racers to safely pursue their sport. It is essential to "put the stop light in, before the accident." Let's avoid something tragic happening on Utah streets.

We have contacted the company SITLA is working with on the Phase One Environmental Study on the property. Known environmental concerns exist. We have reached out to Senator's Romney's office (letter below) for potential federal aid for environmental cleanup/remediation. We will continue to work this topic as a top priority.

Thanks to everyone who signed on to our petition list during the UVU Car Show and Swap Meet last month! We are over 1500 people so far! We will continue to seek support/signatures at various automotive events!

We need and appreciate everyone's help and support to "Bring 1/4 mile drag racing safely back to the Salt Lake Region!"

Thank you to everyone who has joined on to our petitioning effort at www.udrc.us! Please continue to spread the word!

Best regards,
Scott
